U.F.A. and U.F.W.A Convention
Held Here on Saturday Last.

At the big annual convention of the Stony Plain Provincial Constituency U.F.A. Association, held in Moose Hall on Saturday, a resolution endorsing the platform of the C.C.F. and requesting the Government to put these principles into practice, was introduced, discussed, and carried. The meeting was under the chairmanship of Mr H Critchlow of Barhead, the U.F.A. director for Peace River District.

Free medical service with hospital treatment for needy people in rural districts at the expense of the Province; and also legislation to make gambling illegal; were some of the other resolutions passed.

J. Russel Love, M.L.A., for Wainwright, reviewed the financial record of the Brownlee Government, stating it exceeded in efficiency and economy any other government in the country.

Donald MacLeod, Assemblyman for the Stony Plain Constituency, dealt with the year's work of the present Brownlee Administration. He said the road building investigations had disclosed neither inefficiency nor dishonesty.

In having failed to distribute the goods it produced, declared Wm. Irvine, Member in the House of Commons for the Wetaskiwin Constituency, Capitalism had failed dismally. Capitalism had failed, he claimed, because it had not been able to solve the technological problem of the unemployment of 35,000,000 people.

In his address, C. L. Gibbs, M.L.A., contended that the fact that 75,000 persons had polled votes for the C.C.F. candidates in the B.C. elections was proof that the people were ready to accept the principles of the Co-operative Commonwealth Federation.

**Notice to the Ratepayers
of Inga M.D. No. 520.**

Where There's A Will, There's A Way."

The Councillors of Inga Municipal District earnestly appeal to every ratepayer to pay their taxes as soon as possible.

On Saturday, Nov. 18, the Secretary, Mr. Joe Best, will be at the Royal Hotel Parlor, Stony Plain, at 10 a.m.

He will also be at Carvel on Wednesday, Nov. 22.

And at Duffield, Saturday, Nov. 25.

The Councillors hope to have the support of all the Ratepayers in their sincere efforts to collect taxes and put the Municipality in a better financial position.

Saturday's Big Meeting.

The town hall was pretty well filled Saturday afternoon, when the town council made an effort to dispose of some of the real estate which it has on hand, the secretary to the council being used as the medium. In spite of the latter's persuasive powers and oratorical ability, he appeared to be unable to overcome the sales resistance of the members of his congregation assembled.

As a starter, it was announced several of the plots had been redeemed, these being lot 4 block 2; 20 & 21 in block 5; 13 14 15 in block 12; 20 in block 20.

The ball didn't start arrillin' until Rus Wood's butcher shop parcel was reached, on which ex-Mayor Donaldson bid \$500 but this was topped by a raise of \$25; and the parcel withdrawn.

On Mr Wurtz's property, lots 24 and 25 block 10, there was a little competitive bidding, Mr R Breitkreuz bidding as high as \$260.

Lot 23 block 13, the house west of Mr O G Wudel's residence, was next up; the competitive bidders for this piece of property being Mr Peter Schopp and Mr George J Bryan, the latter getting it for \$62.

Several farmers of the district made bids on the vacant lots offered, but the bids failed to reach the reserve price set.

Funeral of Mrs. Warner.

Mrs Pauline Warner, beloved wife of Mr James Clark Warner, passed away on October 30th, at the home of Mrs Matilda Wince, at Bashaw. The remains were brought to Stony Plain for interment.

A service was held at her late home on the afternoon of Thursday Nov. 2; this being followed by a service at Stony Plain United church, conducted by the pastor Rev W E Sieber. Interment was made in the family plot at Inga cemetery.

Decesased was born in Russia on the 14th day of November, 1867, and came to Canada in May, 1900, settling in Rosenthal district.

She is survived by her husband; three sons—Theodore, Rudolf and Adolf; three daughters—Mrs Amelia Hubbell; Mrs Matilda Wince; Miss Lily Warner.

Card of Thanks.

Mr James Warner and Family wish to thank their many friends for the kindness shown and for the expressions of sympathy given, on the occasion of their recent sad bereavement.

Juvenile Club Reorganises.

Following the example of the Juniors, the Juvenile hockey players held a reorganisation meeting on the 1st inst, and elected a Pres and Sec-Treas. To raise funds with which to carry on, it was decided to hold a whist drive, and this is billed to be held in the town hall the evening of Friday, Nov. 17. Those interested were out in full force at the meeting, and it looks as if this class of hockeyists will have three teams on the ice. A schedule is being drawn up.

The Hudson Bay Route Again

The Financial Post of Toronto, that uncompromising opponent of the Hudson Bay Railway, has taken note of the article which appeared in this column some weeks ago in which we took exception to the attacks made by this Eastern financial paper on this great national scheme to provide the prairie west with an ocean port somewhat nearer to its great productive areas than Montreal in the east and Vancouver in the west. It will be recalled that the Financial Post condemned the Bay route in toto, declaring that the railway should never have been built, that it was nothing but a contractor's racket, and that having been built and harbors facilities and an elevator provided, it should now be completely abandoned. It criticized the granting of free elevator storage or low rates for a few years while the route being developed. It characterized the whole enterprise as a "colonial failure," "a hybrid of a white elephant and a political sacred cow," and so forth, and so on.

We have no particular desire to enter into any extended controversy with the Financial Post, and it is gratifying to note the much more moderate tone of its later article and the almost apologetic manner in which it seeks to defend its attitude. Nor does it repeat its advocacy of the complete abandonment of the route. However, it does continue to belittle it and to argue that it is economically unsound and cannot ever hope to be a success. It repeats its unsupported charge that the building of the railway was "a plain ordinary contractors' racket from the beginning," and that "it should have been opposed by all good citizens," wherever resident in Canada.

The Hudson Bay Railway was not a contractors' racket. Some of the old Mackenzie and Manly enterprises, notably the building of a line paralleling the C.P.R. around the north shore of Lake Superior, might be so designated perhaps, but it was not a group of contractors but the people of Western Canada who demanded the building of the Hudson Bay Railway. Some money no doubt was wasted in switching the original route from Churchill to Nelson, but sound business reasons alone influenced the switch back again to Churchill. Not racketeering contractors, but the best harbor expert in the world was responsible for that change. And since the change was decided upon the rail road will go with a maximum of speed and efficiency, and at a minimum of cost. Possibly The Financial Post is a better citizen than more than a million people resident west of the Great Lakes, but we are not prepared to admit that all these people are not "good citizens," as The Post implies in the case.

The Post, in its latest article, has this to say: "The truth of the matter is that the opening up of the Hudson Bay route has not attracted any measurable volume of traffic on a purely economic basis. A certain amount of grain has gone out in each of the past two years because of the remission of a major portion of the fees that the Government should be collecting for that traffic."

As pointed out in our former article, and as The Post must admit, and does admit, the route has been out only two years in operation. Those two years were in the midst of the greatest depression the world has ever known. They were two years of greatly reduced crop production in Western Canada due to drought. They were years of abnormally low prices for wheat. In every respect they were not normal nor average years. The Financial Post knows all this is true, but disregards it.

How great a tonnage, it may be asked, passed out of the port of Montreal in the last two years since the Government's decision to make it a real ocean port? Did or did not, the Government offer incentives to encourage shipping in and out of that port in the years of its infancy? How many millions of dollars were spent before the shipping world finally recognized the feasibility of the St. Lawrence route and a ocean port a thousand miles from the open sea? Does the Financial Post now think that the port of Montreal should have been "completely abandoned" two years after its inception?

All the West asks is that The Financial Post, and other eastern interests like it, fair. With much that The Post says about dinky little harbors, waters and canals scattered here and there all over Eastern Canada, we are agreed that the great Hudson Bay route cannot be listed in the same class with them.

On page 2 of the same issue of The Post in which its later article on the Hudson Bay route appears, there is printed a despatch from its special correspondent at Ottawa in which he notes that owing to drought there is a serious lack of water in the lower St. Lawrence and the port of Montreal, and the ship channel to the Gulf. The Post despatch says: "With only a fraction over 27 feet of water in the harbor, the port authorities at Montreal are extremely worried. Ships may have to restrict their cargo and, perhaps, cancel bookings to Canada's premier port." The Post despatch continues:

"This is not a pleasant prospect. But there is little that can be done about it right now. Shipping interests are putting up a vigorous demand for remedial works to control the flow of water down the St. Lawrence and thus ensure adequate depth for navigation. The Government is ready to submit our a conservation policy but there is a conflict of opinion as to how the work should be done. It is thought likely that a commission will be appointed and that it will remain in existence for a long time to come."

Even at this date, does The Post think the port of Montreal should be abandoned as "a hybrid of a white elephant and a political sacred cow?" Does it feel that this continuous dredging from year to year at the expense of the taxpayers should be stopped? Does it, or does it not, favor the expenditure of more millions of dollars to ensure a greater depth of navigation in the St. Lawrence and the harbor of Montreal? Or is the St. Lawrence route from, say Quebec to Montreal, a "colonial failure?"

The West takes no narrow view of this matter. Montreal is a great national port. We want to maintain its full efficiency at any hazard and at all costs. We believe all "good citizens" share our view and we expect to adopt that view. If the St. Lawrence route after half or three quarters of a century of Government assistance still is in need of that assistance, let it be forthcoming. But we do not wish to assist the Hudson Bay route in the initial years of that route, and years marked by most abnormal and extremely difficult economic conditions the world over?

Household Drudgery The Care of a Woman's Life

Nature intended women to be strong and healthy instead of weak and sickly, but how can a woman have good health when she has to go through the household drudgery without relaxation. It is any wonder she becomes nervous, irritable, has hot flushes, faints and dizzy spells, shortness of breath, sinking and aching sensations, and can't sleep at night.

Women who are weak and run down will find in Milburn's H. & N. Pills a remedy to strengthen the system and bring back the much desired health.

England Has Right Idea

John Bull's Objective Is To Keep Everything Moving

Americans, apprehensive of inflation, are reported shipping their dollars to England and Canada. Americans who do this are foolish. They should keep idle money at home.

There is nothing wrong with Uncle Sam's dollar in the world. It has behind it a greater per capita wealth in territory and foods and goods and technological productive capacity than any dollar on earth.

The truth is that Uncle Sam and his citizens, while rich in natural wealth and productive capacity, are poor in psychology and philosophy. Americans have not yet learned that in sports, in money and in life, losses and reverses are all part of the game.

The truth is that Uncle Sam and his citizens, while rich in experience and philosophy, grew wealthy by taking losses; England's objective was to always keep the game or the business or the country going—Vancouver, B.C., Sun.

Feels 50 lbs. Slimmer

After Losing Only 5 lbs.

"I started taking Kruschen Saps in the winter, when I weighed 115. I have lost 5 lbs. in weight, and I feel as if I have lost 50 lbs. I am full of vigor, whereas before I was listless and wore out over little things. But my trousers were too loose, so I would not worry me now—thanks to Kruschen."—(Miss) V.P.

Here's the recipe that banishes fat and makes you look like Kruschen Saps in a glass of hot water before breakfast.

Be sure and do this every morning, because it is the best way to "get off the fat." When you take Kruschen Saps it means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are cleaned up, and the fresh blood containing Kruschen Saps is carried to every part of the body. This leaves "that Kruschen feeling" of energetic health and accuracy that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

White People Starve

Brazil has destroyed 23,107,000 bags of coffee to raise the price of that commodity, thus furnishing Secretary Wallace, destroyer of little pigs, a mark to shoot at, says the Chicago Daily News.

STOMACH ACID BURNS LIKE FIRE

Sometimes stomach acid makes your stomach feel like a lake on fire. You can stop this quickly and get immediate relief from burning pain, sour taste and indigestion by taking a spoonful of Bisulurat Magnesia in half a glass of water. Any drug store has Bisulurat and just one spoonful will prove how quickly it works.

Helen E. Kimball's Recipes

New Cake Frostings By Director, Food Service Department, Borden Company, Toronto

Among the most interesting recipes which have been evolved recently are those which are based on the cake. These are easy to make and the crunchy deliciousness of the finished cake will thrill you. The basic ingredient in all frostings is sweetened condensed milk. Add to this either whole milk and cane sugar cooked down to a richness that is almost of a frosting consistency as it comes and add a few drops of vanilla or one of two other simple ingredients for a perfect frosting. The cake should be baked as usual and cooled. Spread the frosting on the top or on the sides of the cake as soon as possible. If you haven't frosted the sides use the pan in which the cake was baked and browned directly in a hot oven (450 degrees Farenheit). The frosting will dry out as might be supposed because it is spread with moist frosting on all sides. Be sure and watch the cakes carefully until it is in the stove for sugar mixtures, as you know, burn rather easily.

COCOANUT BROILED ICING
1 cup evaporated condensed milk; 2 tablespoons butter, melted; 4 tablespoons brown sugar; 1 cup shredded cocoanut. Combine all ingredients and blend thoroughly. Spread on cake. Place very hot broiler under a slow flame. Broil the icing bubbles all over and the surface becomes light brown. Remove from burner. Cool.

Further recipes will appear in later issues.

Production of automobiles in France has been increasing this year.

Newspaper Men Meet In Regina

Annual Gathering Of The Saskatchewan Section Of C.W.N.A.

A meeting of the Saskatchewan division of the Canadian Weekly Newspaper Association was held in the Saskatchewan Hotel, Regina, on Oct. 27. John Scott, Whitewood, presided, with 42 members present.

D. C. Dunbar, Estevan, was chosen president for the ensuing year.

H. Gamble, Gull Lake, publisher, was elected vice-president. Other officials for the new term include S. J. Dornan, Alameda, secretary-manager, who is now serving his tenth term; E. S. Zingg, Wapella, treasurer.

New members of the executive are C. H. Holmes, Rosetown; J. N. Munson, Saltecoats; H. Berryman, Blaine Lake, and H. D. Pedler, Oxbow.

Hon. Howard McConnell addressed the gathering at the afternoon session, explaining the steps taken by the Government in the distribution of printing and advertising among the weekly newspapers.

A mutual system of insurance for publishers was advocated by E. Willoughby of Milestone.

The Mid-West Paper Sales Limited, tendered a complimentary dinner to the delegates.

Thrive In The Arctic

The only domestic animal bred profitably in the Arctic regions is the reindeer, because it requires neither hay for feed nor shelter for protection.

There are more than 125,000,000 of them, and it is not uncommon for single breeders in Arctic Siberia to own herds of 10,000 at a time.

An old bachelor who had just witnessed a church wedding was heard to remark: "They may not know it, but the yoke is on them."

Across Africa In "Baby" Car

Two Englishmen Made Trip In 185 Days Including Delays

Alan Gilk and Kaiter Kay have just completed a journey from Liverpool, England, to Cape Town, South Africa, in a "baby" automobile. They covered 13,370 miles in 185 days, including delays, which at times extended to weeks. When they crossed the Sahara they were accompanied by a native "pilot" in accordance with demands of French authorities, and part of the way by huge "busses" carrying machine guns for protection against possible Taureg raiders. The distance across the desert is 850 miles, and the temperature was scorching. Tribal troubles caused Gilk and Kay to make a detour of 1,600 miles from Tangier, where they were told fighters had closed the direct road south of Fez.

DOCTORING YOUR DAIRY HERD

Cows aren't machines. They can get sick or hurt. But Minard's Liniment makes it easy to care for their ill or injured cows. Billie of Laredo, B.C., found one of her herd with a lump in her udder. "I rubbed it with Minard's Liniment," she says, "and it soon got better." Minard's is best for Cuts, Bruises, Colic, Distemper, etc., and equally good for babies in the house. Well named "King of Pain".

Billed As Talcum Powder

French customs officers at Modane, on the Franco-Italian frontier, recently noticed a railway car loaded with barrels, which were billed as containing powdered talc. They were consigned from Italy to a man in Lyons. Seventy-five of the 111 barrels held choice smoked hams packed in talcum powder. The custom charges on the pork seized totalled \$1,300.

WHY ASPIRIN WORKS SO FAST

Drop an Aspirin Tablet in a glass of water. Note that Bubbles form around the tablet. After a few seconds, it has started to disintegrate.

The illustration of this is here. tells the story. An Aspirin Tablet starts to disintegrate almost instantaneously. *And thus is ready to work almost immediately.*

When you buy, though, be on guard against substitutes. To be sure you get ASPIRIN'S quick relief, be sure the name *Aspirin* is in the form of a cross on every tablet of Aspirin.

MADE IN CANADA

Does Not Harm the Heart

Ambitious Plan To Construct Ocean Airports To Facilitate Air Travel Across Atlantic

Long the blue-printed dream of an imaginative inventor and his associates, construction of a chain of seadrome ocean docks across the Atlantic may soon become a reality under the NIRA.

The Seadrome Ocean Dock Corporation, formed to translate into actuality the plans of E. R. Armstrong, the seadrome inventor, has applied to the Federal Public Works Administration for a \$30,000,000 loan for the construction of five seadromes.

Claiming its revolutionary project is now a feasible and practical venture, the Seadrome Corporation asserts granting of the loan would put 10,000 men back to work in 30 days and would create a demand for 100,000 tons of steel.

The seadrome, or floating ocean airport, was first conceived by Armstrong in 1913, while he was striving to develop some safe method for trans-oceanic air travel. Under present plans the seadromes would be strung across the ocean at intervals of about 450 miles to provide safe landing spaces for planes.

An open works structure of iron and steel, the seadrome is 1,225 feet in length and about 300 feet wide. Its principal characteristic is a huge aeroplane landing deck, rectangular in shape with narrow ends, much like that of the landing deck of a naval aeroplane carrier.

Huge buoyancy tanks would maintain the landing deck on even keel 100 feet above the waterline while the gigantic seadrome itself remains hitched to the ocean bed by steel cables attached to a 1,500-ton reinforced concrete anchor.

Because of its openwork girder construction, seadromes claim the seadrome can withstand the buffeting of huge ocean waves which they explain will pass through the streamlined understructure without breaking.

Beneath the huge landing deck where aeroplanes will come to rest and take off again will be service hangars, repair shops, weather bureaus, radio equipment, beacon lights and modern hotels. Passengers will be able to stop overnight at the seadrome hotels in the middle of the ocean where they can patronize restaurants, shops, beauty parlors, theatres and gymnasiums. The seadromes will also have stock exchange branches and even fishing facilities.

Use of the seadromes, according to its sponsors, will not only eliminate practically every vestige of danger and chance from trans-oceanic flying but will make the Atlantic crossing a matter of only 30 hours at the most.

Atmospheric conditions in a world in itself, weight 63,000 tons and will cost an estimated \$60,000,000.

It will be manned by a resident personnel of about 125 and a floating payroll of between 300 and 500 persons.

The first seadrome would be anchored in the ocean about 375 miles east of New York city. Three others would be built at intervals of 470 miles in a line due east to the Azores and the final link between the Azores and the coast of Spain.

Seadromes anchored in the gulf stream, which is equivalent to the semi-tropical latitude of Bermuda and the Azores, are expected to prove popular summer resorts.

In applying for the NIRA loan, the corporation set forth that the seadrome project will be selfliquidating as a result of revenue expected from hotel and store concessions and fees from the several trans-Atlantic airlines expected to patronize the islands of steel.

It is further pointed out that no federal money, except local board approval is necessary and no land costs are involved, while the \$30,000,000 loan which would completely revolutionize ocean travel and place Europe only 30 hours away by air, is much less than the cost of even one naval aircraft carrier.

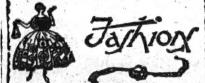

The seadromes will be constructed in sections, probably in ship-building yards at Philadelphia and Chester, Pa., towed to the Delaware breakwater for assembly, and from there to their final resting place in the Atlantic.

Cleansing Milking Machine

Weak Lye Solution For Rubber Parts Found Satisfactory

Additional work at the Dominion Division of Agricultural Bacteriology on the use of weak lye solution of 0.4 to 0.5 per cent for the treatment of milking machines, rubber parts shows that mills of a satisfactory sanitary grade can be obtained when the lye treatment follows a cold water suction rinsing, eliminating the use of hot water. This represents the simplest and cheapest treatment for milking machines yet devised. Tests with milking machines and milk cans indicate that lye has a very pronounced specific germicidal action on the kinds of bacteria which are responsible for many defects in milk and dairy products.

HERE IS A CHARMING MODEL FOR MATRONS! IT CAN ALSO HAVE PADDED ROLLS AT THE SHOULDERS

Attention Matrons! You'll like this model with its slimming bias lines and raglan shoulders. In the small view, note the new smart way to wear the shoulder. You'll be surprised how easily this is done. And don't you think the effect charming? The pattern envelope explains everything in detail it is.

The original model was carried out in black crepe satin using the dull side of the crepe. The reverses show the shiny side of the crepe, which makes a very amarant trim. Faile crepe, crepe marocain and wool crepe are other suitable suggestions. Style No. 488 is designed in sizes 36, 58, 40, 42, 44, 46 and 48 inches bust. Size 36 requires 4 1/4 yards 36-inch with 1/4 yard 35-inch contrasting. Price of pattern 20 cents in stamps or coin (coin is preferred.) Wrap coin carefully.

Trying Novel Experiment

Modern Housing Plan Is Becoming Popular In Chicago

Under direction of a foundation established by the late Marshall Field, department store owner, a novel experiment in modern city housing is being conducted in Chicago.

It is a five-story apartment building, covering two blocks, and making available to tenants a unique plan of community life that includes care and training of children by teachers and nurses.

Priced to attract tenants of average means the building contains nearly 600 apartments. Stores, restaurants, barber shops, and a community hall all are included in the building.

A court running almost the entire length of the two blocks provides room for a flower garden, shrubs and fully-equipped playgrounds for children from one to twelve years of age. The most popular innovation, however, is a well-directed department for child care and training. A classroom for primary instruction is provided. Also there is a nursery where mothers may leave their children all day.

In addition to the usual school subjects, musical and dramatic training is provided for children, inclined toward these arts. Industrial and vocational training likewise is provided.

Angelo Patri, noted authority on child training, recently said of the novel experiment: "I have dreamed of such a scheme for years. I tried to sponsor such a plan in New York, but my plan was rejected. I sincerely hope your pioneering effort will succeed."

Great Increase Noted

Appendicitis Causes Many Deaths Annually States U.S. Doctor

Dr. Stanford McKee, clinical professor of ophthalmology, at McGill University, Montreal, told the Post-Graduate Medical Association of North America, at Cleveland, Ohio, that appendicitis has become a disease that attacks the eyes, immediately in such a manner as to destroy the sight.

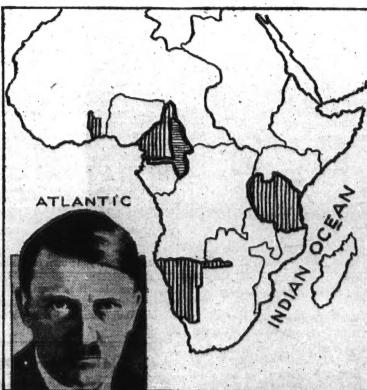

Appendicitis, said Dr. George P. Muller of the University of Pennsylvania, "has become so common that 20,000 young people die each year in the United States because of it. By young people, I mean an average age of 23." The reason for the increase in appendicitis cases, Dr. Muller added, is not known.

Seven years ago pernicious anemia was "absolutely fatal," but now, says Dr. Cyrus C. Sturges of the University of Michigan, it has a death rate of only 10 per cent.

Prior to 1926 pernicious anemia, commonly termed a deficiency in the quantity of blood or its constituents, was "absolutely fatal," with patients living an average of only two or three years," he declared.

The use of liver and liver extracts became a part of the treatment developed since that time to combat the high death rate.

HITLER PLEADS FOR RETURN OF COLONIES

A report emanating from Berlin stated that Chancellor Hitler has made a plea for the peaceful return of the German colonies taken from her after the Great War. Above is a rough outline map of Africa, showing the German colonies which were captured by the Allies during the Great War. Those shaded with vertical lines are now British possessions; while the small areas shaded with horizontal lines have become French property. There are several small islands in the Pacific which were taken from Germany and which she would like returned.

Greater Revenue Is Obtained By Provinces By Increased Cost Of Motor Vehicle Registration

Advice For Canadian Dairy Cow Exporters

Tag Giving Necessary Information Would Be Financially Beneficial

In the export of Canadian dairy cows to the United Kingdom, shippers and importers will benefit financially, says W. A. Wilson, animal products trade commissioner for Canada in Great Britain, who in a separate statement attached to the shipping documents on which is listed the ear-tag number of each cow and the approximate freshening date. Buyers want cows fresh with freshen shortly after arrival and will pay something additional for definite knowledge of that head. Furthermore, in the total absence of this information, bargaining on all sales, except, in evident cases, proceeds on the assumption that the freshening date is speculative and will be delayed. The dairymen who are supplying the liquid milk trade, and who must have a nearly level supply, emphasize this point particularly. They may even decline to purchase cows whose breeding and conformation are suitable, just because the freshening time is doubtful. It is very desirable, therefore, that shippers, even at some inconvenience, take the necessary precautions to remove that doubt, and thus give the importers the advantage of bargaining with certainty.

"These two provinces made increases of 36.86 and 22.20 per cent, respectively, by increasing the rates.

All the other provinces collected smaller revenues, ranging from 4.41 per cent for New Brunswick to 9.76 per cent for Prince Edward Island. Although Ontario raised the average passenger rate by 56 per cent at \$9.46 per vehicle it is still the lowest of all the provinces.

"All the provinces except Quebec and Alberta raised the gasoline tax during the spring of 1932 and Quebec made a raise in December, 1931. New Brunswick, Manitoba and British Columbia raised it from 5 to 7 cents and the other provinces raised it to 5 to 6 cents. These increases more than offset reduced consumption and raised the gasoline tax revenue by \$4,537, or 197, or by 5.12 per cent, from \$22,546.10 in 1931 to \$27,088.16. Ontario led with an increase in gross revenue of \$2,699.841 and Quebec followed with an increase of \$345,012. In Saskatchewan the reduction in consumption almost offset the increase in the rate and the revenue of \$1,322,951 was larger than in 1931 by only \$18,804, or 1.44 per cent. These revenues are gross, including commissions paid to gasoline distributors for collecting and forwarding the tax to the provincial authorities and also the expenses of the provincial offices are not deducted."

Ontario led with an increase in gross revenue of \$2,699.841 and Quebec followed with an increase of \$345,012. In Saskatchewan the reduction in consumption almost offset the increase in the rate and the revenue of \$1,322,951 was larger than in 1931 by only \$18,804, or 1.44 per cent. These revenues are gross, including commissions paid to gasoline distributors for collecting and forwarding the tax to the provincial offices are not deducted."

"All the provinces except Quebec and Alberta raised the gasoline tax during the spring of 1932 and Quebec made a raise in December, 1931. New Brunswick, Manitoba and British Columbia raised it from 5 to 7 cents and the other provinces raised it to 5 to 6 cents. These increases more than offset reduced consumption and raised the gasoline tax revenue by \$4,537, or 197, or by 5.12 per cent, from \$22,546.10 in 1931 to \$27,088.16. Ontario led with an increase in gross revenue of \$2,699.841 and Quebec followed with an increase of \$345,012. In Saskatchewan the reduction in consumption almost offset the increase in the rate and the revenue of \$1,322,951 was larger than in 1931 by only \$18,804, or 1.44 per cent. These revenues are gross, including commissions paid to gasoline distributors for collecting and forwarding the tax to the provincial offices are not deducted."

WORLD HAPPENINGS BRIEFLY TOLD

Soviet Russia sent five military aeroplanes as a gift to Turkey on the occasion of the republic's 10th anniversary.

A student objecting to military drill because he opposed war, won exemption for the first time in University of Minnesota history.

The League of Nations central opium board decided not to include Manchukuo in countries to which forms will be sent for an estimate of narcotics.

Ambassador Naotake Sato denied rumors Japan was following in Germany's footsteps and gradually withdrawing from the disarmament conference.

At Agassiz, B.C., a White Leghorn pullet, 10-L, attained a pinnacle in the poultry world by laying her 357th egg in 365 days. "Dauntless Derrreen" deposited the egg which enabled her to equal a world egg-laying record.

The British empire is an example to the world that co-operation for positive ideals is possible between great and free nations, declared J. H. Thomas, secretary for the dominions, in a speech at London, England.

David M. Lim Yuen, second year science student at McGill University, has been awarded the Robert Bruce Scholarship, tenable for one year and having a value of \$100. It was announced at Montreal.

Veteran of three campaigns in Africa and also of the Great War, Sergeant James Robinson, D.C.M., one of the best known figures in Canadian military circles died in Vancouver on the eve of his 76th birthday, following a stroke.

Since the British Empire trade pact, formed at Ottawa imperial conference, had come into effect, Canada's trade with the empire had increased \$315,000,000, according to Hon. H. H. Stevens, Minister of Trade and Commerce.

His Majesty the King hopes to deliver for the second time a Christmas Day message of greeting and good will to the people of the empire by mid-Dec. 25. He spoke for several minutes last Christmas from the ground floor apartment at Sandringham Palace.

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile
—Without Calomel

Your liver is a very small organ, but it certainly can put your digestive and eliminative organs in a bad way if you do not take daily two pounds of liquid bile into your bowels. You won't completely cure such a condition by taking a laxative or cathartic, or chewing gum, or roughage. When they've moved on through the system, and you need a liver stimulant.

Carter's Little Liver Pills are the best back table safe. Ask for them by name. Refuse substitutes. See all druggists.

BUYS AT LOWER PRICE

Canada Pays Less For Coal Than Other Countries

Canada enjoys lower coal prices than most other countries forced to import coal." Sir Alfred Core, president of Amalgamated Anthracite Collieries of South Wales, testified in Quebec at the continued trial in court of king's bench of six coal companies charged with forming a combine to maintain the price of coal.

"Canada imports her coal in summer while prices are low while most other countries import during the high-price winter season," Sir Alfred stated.

Due To Public Sentiment

Cruelty To Dumb Animals Becoming Thing Of Past

The day of the cruel steel trap is doomed. This reproach to any people permitting it all decent men and women will sooner or later refuse to tolerate. Times has cut out of the status books of many a state and nation their sanctions of even greater cruelties.

A few years ago no one thought a law could be secured in Massachusetts to prohibit the cropping of dog's ears; and now Pennsylvania has followed with a similar law. Public sentiment made possible the law. It will yet deal with the torturing steel trap in the same way—Our Dumb Animals.

WEAK WOMEN

Take Lydia E. Pinkham's Vegetable Compound

Have you ever felt that you were too weak or anything . . . that you don't have enough energy or strength?

Women who are weak and run-down should take a tonic such as Lydia E. Pinkham's Vegetable Compound. Herbs and roots are the secret. Herbs are the tireless, run-down compound often referred to this marvelous medicine.

"The Last Concert in Europe, verses 13-14—'I am full of pain, an ague in Philippi, for had there been Paul would have gone there with Sabbath. Learning that there was a place where the river bend beyond the city gates, he went there and found a company of women.'

"We are told sometimes today that our church is full of women that there are not enough to claim to contradict that statement whenever I hear it made. But the measure in which it is true is the condemnation of the women of the world. The coming Christians and churches lament if the hour should come when the women cease to worship." —G. Campbell Morgan.

Another woman was Lydia, a prosperous merchant from Thyatira, who deals in purple-dyed garments. She was a Jewish proselyte, for she was converted. Lydia got the message to the missionaries to make her house the meeting place for the women. Hospitality was always a marked characteristic of the early church.

When the women heard the Epistle to the Philippians and saw the spiritual power and the moral quality of life in that wonderful church to which Paul wrote from his prison in Rome, it is not easy to picture its beginning in that little town of women.

Hospitality was always a marked characteristic of the early church. When we read the Epistle to the Philippians and see the spiritual power and the moral quality of life in that wonderful church to which Paul wrote from his prison in Rome, it is not easy to picture its beginning in that little town of women.

When we read the Epistle to the Philippians and see the spiritual power and the moral quality of life in that wonderful church to which Paul wrote from his prison in Rome, it is not easy to picture its beginning in that little town of women.

The woolen employment index figure increased from May to September of this year by 32.8 per cent., the silk index by 7.2 per cent. and the knitting index by 13.8 per cent.

HAMILTON, ONTARIO

Saskatchewan Has Lowest Tuberculosis Death Rate

Reduced From 43.5 to 30.1 Per 100,000 of Population Since inauguration of Preventive Work and Free Treatment Four Years Ago—Christmas Seal Sale Provides Funds For Preventive Work by Which Cases Are Discovered in Early Stages Making Recovery More Certain and Reducing Period of Treatment and Cost to Taxpayers.

Slowly but surely Saskatchewan has been examined at the expense of the Christmas Seal Fund. Out of this number 1957 active cases of tuberculosis were discovered and have now received the attention which they were in need of, thus lessening both the deaths and suffering from tuberculosis.

Tuberculosis Still Greatest Cause of Death

The great need for Preventive Work is shown by the fact that Tuberculosis is still the greatest cause of death in the province, the age period 15 to 44 years. There were last year 281 deaths from tuberculosis in Saskatchewan. Tuberculosis is by far the greatest cause of death among the infectious in this province, accounting for more than one-third of all deaths from epidemic, endemic and infectious diseases.

BUY CHRISTMAS SEALS LIGHT CIGARLOOPS

The great need for Preventive Work is shown by the fact that Tuberculosis is still the greatest cause of death in the province, the age period 15 to 44 years. There were last year 281 deaths from tuberculosis in Saskatchewan. Tuberculosis is by far the greatest cause of death among the infectious in this province, accounting for more than one-third of all deaths from epidemic, endemic and infectious diseases.

The reduction of the death rate from this preventable disease by more than 25 per cent. in four years is eloquent of the success and necessity for continued preventive work.

The Christmas Seal Fund is the chief funds for Preventive Work.

Preventive Work

The most important phase of Preventive Work is the examination of those showing symptoms of tuberculosis. This is done by contact with Tuberculosis experts. Discovery of the disease in its early stages makes recovery more certain and lessens the period of treatment—during which time which the general taxpayer is called upon to shoulder to maintain the three Sanatoria of the province.

In 1928, the results of the 1927 Christmas Seal made possible the following Preventive Work:

12 babies born of tuberculous mothers were cared for in the Preventorium in conjunction with the L.O.D.E.

2002 persons were examined at the three Sanatoria.

1646 cases were diagnosed at City Clinics.

1369 persons were examined by travelling consultants.

720 Normal School students were examined.

803 contacts were examined by family physicians.

194 school children were examined.

Since 1928, 23,379 persons, nearly all children and young adults,

have been examined and helped to protect your own children.

Earrings in the form of little lamps with light rays of valuable solitaire diamonds, are being worn in Europe.

To Have Modern Ferries

Steel Boats To Replace Old Type At Shanghai

Hong Kong is to have its first modern ferries on January 1, when a company begins operations between the international entrepot and the main ferry. The new steel boats will accommodate 500 passengers and 12 motor trucks. The bottom deck will be used for vehicles and third-class passengers, the middle deck for second-class passengers, and the top deck for first-class passengers.

No Cold Is a Fixture with Buckley's Mixture

No sir, no matter how hard and desperate your cough or cold may be, Buckley's Mixture will stop it.

The very first dose gets down to business you can feel it doing its good.

U. F. M. HAVE DECIDED TO KEEP OUT OF POLITICS

Portage La Prairie, Man.—The non-political status of the United Farmers of Manitoba will be maintained, it was decided at the three-day annual convention here. A policy of independence, free from all political party alliances, as adopted five years ago, was re-affirmed by a large majority.

Rejection of the proposal for political action brings to an end efforts made for political affiliation by the Co-operative Commonwealth Federation, under the leadership of S. J. Woodsworth, leader of the group in the House of Commons. The vote was not recorded.

The resolution was adopted requesting mortgage companies to refund farm mortgages as speedily as possible on an amortization basis at low rates of interest. It was described as a "measure of compromise" giving the "other fellow" a chance, and its sponsors suggested a 20 to 25-year amortization plan with the possibility of administration through a provincial lands board.

Infation, controlled by an independent commission under federal government supervision, debt adjustment and marketing problems were given consideration Wednesday.

The suggestion was made all money contracts should be revised to levels where payments of debts would be possible. Loan companies, it was argued, should be prepared to take their share of loss resulting from the economic depression.

Doctors Resign

Eleven Members Of Honorary Staff Of Winnipeg Differ Over Relief Policy

Winnipeg, Man.—Eleven doctors on the honorary staff of Victoria Hospital, who submitted their resignations to the board of directors a month ago, have resigned; it was announced by Dr. E. S. Moorhead, chairman of the joint committee of the Manitoba Medical Association and the Winnipeg Medical Society.

The resignations declared the doctors were not in accord with the directors on the policy laid down in Victoria Hospital for treatment of patients on relief. It was contended in other Winnipeg hospitals the honorary staff attended only emergency relief cases, whereas at Victoria hospital, members of the honorary staff administered to all relief patients.

Drop In Wheat Exports

Last Week In October Shows Decrease From Same Weeks In 1932

Ottawa, Ont.—A decrease of more than 1,500,000 bushels was shown in export clearances of wheat for the week ending October 27 as compared with the previous week, and a decline of more than 1,000,000 bushels as against the corresponding week of last year, according to a report issued by the Dominion Bureau of Statistics.

During the week ending October 27 the export clearances of wheat totalled 4,037,403 bushels compared with 5,837,006 in the previous week.

Canadian wheat in stores on October 27 totalled 249,502,238 bushels, compared with 245,240,584 the week before and 239,434,997 on the corresponding date of 1932.

Plan Would Be Welcome

Victoria, B.C.—Premier S. F. Tolmie hailed enthusiastically reports from Washington which, however, lacked official confirmation, that \$15,000,000 had been set aside for the construction of the projected Pacific Coast Alaska Highway. "This work would solve the unemployment problem of British Columbia," said the premier. The highway would link Seattle and Vancouver with Alaska.

Report New Medical Discovery

London, England.—Reports were in circulation among medical men that Dr. F. G. Banting, Toronto's discoverer of insulin, had perfected a device to prevent contraction by miners of silicosis, dread lung disease, caused by inhalation of minute particles of dust in the air.

Prizes For Poetry

King George To Offer Medals For Volumes Of Empire Verse

London, Eng.—A statement from Buckingham Palace said the king had signified his intention of offering annually gold and silver medals for English poetry published within the Empire in volume form by British citizens.

A committee of judges to decide the awards will include John Masefield, poet laureate, as chairman; Laurence Binyon, author and keeper of prints and drawings in the British Museum; Walter De La Mare, poet, author, playwright, and actor; Ivor Richards, critic.

Sub-committees will be appointed abroad to recommend books from India, the Dominions and Colonies. Medals will be awarded toward the end of each year for works published during the preceding year. First awards will be made in December, 1934, for books published in 1933. The medals will be given for their first or second books, or to poets under the age of 30.

Writer To Be Expelled

British Newspaper Correspondent To Be Released From Munich Jail

Munich, Germany.—Noel Panter, a British newspaper correspondent accused of misrepresenting a recent Nazi gathering at which Chancellor Hitler spoke, will soon be released from the Munich jail and expelled from the Reich, an official statement said.

The state's attorney in Leipzig, the communiqué declared, found after mature consideration that there was no further cause for prosecuting Panter and that "a continuance of his sojourn in Germany is undesirable."

No date was set for his release and expulsion.

Panter, a correspondent here for The London Daily Telegraph, was arrested October 25 and held at police headquarters on an official charge of "suspicion of espionage." For several days he was held incommunicado, but the British consul-general made strong representations and was later allowed to see him.

Canadian Coal Industry

Control Under N.R.A. Code Plan Is Advocated

Toronto, N.S.—Control of the Canadian coal industry under a code based on the principles underlying President F. D. Roosevelt's industrial regulations in the United States would assure improved operations for Nova Scotia's mines, delegates to the district convention of the United Mine Workers of America were told Wednesday by Thomas Kennedy, international secretary treasurer of the organization.

By this means, and by taking advantage of the N.R.A.'s operations below the border, the international executive declared, mining activities in the province could be brought back to a full time basis. Application of a Canadian code, he said, would mean an embargo would be placed on coal entering Canada in unfair competition with Canadian coal, thus providing a wider outlet for the domestic product.

For Reasons Of Economy

District Superintendents Filling Postmaster's Place In Some Cities

Ottawa, Ont.—For reasons of economy no appointments will be made by the government to fill postmasterships in cities where district superintendents are located, it was learned here. The functions of district superintendent and postmaster will be combined, the former performing the duties.

Vacancies exist at present in Toronto, Winnipeg, and Moose Jaw, but the government does not intend to fill them. The postmasters' duties will be undertaken by the district superintendents concerned.

Campbell Building New Car

Indianapolis—William Sturm, of Indianapolis, business manager of the English speed king, Sir Malcolm Campbell, said the racer had started work on another automobile that would prevent him from crossing the Atlantic this winter to attempt to better his own speed of 272.108 miles an hour.

SEES IMPROVEMENT

J. P. Morgan, famous United States banker, was quite talkative about the marked improvement in British business conditions on his return from a lengthy visit to Great Britain. He emphasized that the Mother Country had turned the corner away from hard times.

Benefit Export Business

Sir Henry Drayton Sees N.R.A. Plan As Aid To Canada

Toronto, Ont.—Possibility of the export business of Canada benefiting at the expense of the export business of United States as a result of the N.R.A., as it now operates, was foreseen by Sir Henry Drayton, one-time Canadian Minister of Finance, in an address before Incorporated Accountancy and Auditors Association of Ontario, Toronto chapter.

The direct effect of the N.R.A., according to Sir Henry, was to increase costs.

"Increased price levels must always injuriously affect export business," he declared. "I expect the export business of the United States will be, as matters stand, injuriously affected by the N.R.A. Its success would be a real benefit to us."

Millions Given By Japan For Relief

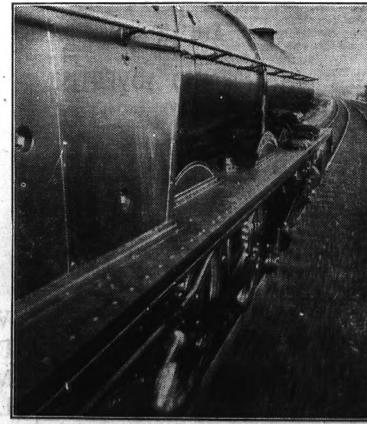

Premier Bracken, Of Manitoba, Advocates A National Policy

Multi-Millionaire Family Establish Fund To Relieve Distress

Tokyo, Japan.—The multi-millionaire house of Mitsui, Japanese banking family, have announced establishment of the 30,000,000 yen Mitsui Foundation to relieve peasant distress. (At current exchange rates 30,000,000 yen is about \$3,526,000 Canadian funds.)

Believed to be the largest private benefaction in the history of Japan, funds will be allotted to organizations working to ameliorate the poverty of farmers and fishermen and to scientific and industrial research groups for the same purposes.

SPEED IS DECEPTIVE ACCORDING TO RECORDING OF CAMERA

Our picture gives a vivid impression of speed and power as seen from the footplate of the new British locomotive, "Princess Royal." The train is approaching Low Gill on its journey from Euston to Carlisle and is gaining momentum for the ascent to Shap. A remarkable feature is the view of the revolving wheels while the "Princess Royal" is travelling at a speed of more than 65 miles an hour. The view was made possible by the projection of the camera from the engine cabin.

HAVE REACHED AGREEMENT ON OCEAN AIR ROUTE

St. John's, Nfld.—Prime Minister F. C. Alderdice intimated that the governments of Great Britain, Canada and Newfoundland had reached an agreement with regard to a proposed trans-Atlantic air service.

The terms could not be disclosed at present, he said, but they were satisfactory to all parties who had participated in a conference here last summer.

The prime minister was interviewed following Sir Eric Geddes' announcement to shareholders of Imperial Airways in London, England, that the big British company had "established a very cordial relationship with official and commercial aviation interests in Canada and can anticipate development of this trans-Atlantic project in complete harmony between Britain and Canada."

Mr. Alderdice offered no prediction as to when the service would be established. He said he felt certain, however, a trans-Atlantic air base would be developed "eventually" in Newfoundland.

Duke Of Athol Summoned

Charge For Violation Of Lotteries Act Creates Sensation In London

London, Eng.—A summons was granted in Bow Street police court against the Duke of Athol for violation of the Lotteries Act. The summons created a sensation in England.

The Duke raised his own private "mystery fund" of more than £150,000 by voluntary subscriptions and then distributed 748 gifts ranging from £2,000 to £10.

The duke set aside £60,000 for charities and distributed £36,000 among the subscribers, who bought tickets after the manner of the Irish sweepstakes.

The lucky subscribers to the Duke's fund were announced Oct. 21. Afterward men from Scotland Yard held a conference with the duke at his Scottish seat.

The case will be heard in the Bow Street court, Nov. 14.

May Close Exchange

Calgary Grain Mart Has Ceased To Be Necessary

Calgary, Alberta—Calgary's exchange, in existence for 30 years, will be closed shortly, it has been decided by members meeting here. The exchange, the members declared, had ceased to be necessary.

C. W. Roenisch declared Vancouver grain exchange facilities had been increased to such an extent most of the trading had moved to the coast city. All export firms either had their own offices or were represented by agents there.

The large majority of members, he continued, had decided they were no longer justified in shouldering the expense of the Calgary exchange.

Extending Mail Service

Airplanes To Carry Mail To Remote North Districts

Ottawa, Ont.—The post office department contemplates two extensions to its existing service down the Mackenzie River. One will be the carrying of air mail to Camassell River, about 35 miles from Cameron Bay, the principal settlement on Great Bear Lake, while the other will reach out to the shore of the Arctic Ocean itself, to Coppermine, which is 200 miles north of Cameron Bay.

"First flight 'cachets,'" eagerly sought after by philatelists, will be issued to commemorate the opening of the post office at Camassell River and Coppermine. These are special air mail stamps.

Bank Report Soon

Ottawa, Ont.—The report of the royal commission on banking and currency, which recently concluded its work under the chairmanship of Lord Macmillan, has been referred to the Governor-General for his approval, after which steps will be taken for its distribution and publication.

Here and There

The Royal Scot, train of British Isles, will soon again leave Montreal en route to dissiminating and shipping from that city to Great Britain. This great train has been traveling through the West of Canada en route to being one of the major exhibits at the Chicago World Fair.

The vehicle of the future will be an automobile that can also take off into the air, or an airplane that can land and travel about the earth. A special addressing of the Society of Automobile Engineers told his audience at the Royal York, Toronto, recently.

Canadian scenery dwarfs that of Scotland, like the Garter set, they were more magnificent than Loch Lomond while Lake Louise in the Rockies was to him almost a celestial vision. According to the chairman of the Royal Commission on Banking, expressed just prior to sailing on the Empress of Britain for England.

Informal discussion on closer working relations between the Canadian railroads and aviation companies of the Dominion are in progress. With Canada lying on the most direct route between Europe and America, this country is in a unique position to take care of a large proportion of the traffic now moving between Europe and the East.

Constituting what is regarded as the finest collection of mounted specimens of trout ever assembled from the same locality in a single season, seventeen fine specimens of this variety were recently exhibited entered in the Nipigon River Camp Guides mounted trout contest recently judged and prizes awarded. The Ontario Department of the Canadian Pacific Railway.

A Christmas and New Year's cruise to the Caribbean and a round the world cruise later by the same ship, the Empress of Britain, Mediterranean cruise by the Empress of Australia; two Duchesses of Bedford cruise to the West Indies and twenty thousand miles long. Two additional ports are scheduled for Canadian Pacific liners for this winter season.

The second reunion of all pilots and observers who had commissions and wings before November 1st, 1918, will be held at the Royal York Hotel, Toronto, on Armistice Day. First reunion was held April, 1932, when 226 wartime flyers from 60 different countries attended. The second reunion is expected to be one of the most brilliant functions ever held at the palatial Canadian Pacific hotel.

Wide-spread interest in John Murray Gibbon's book, "The Music of the Prairie," was manifested by the gramophone contest conducted by the "Gramophone" and "Everyman", London publications. A Canadian response to this contest resulted in an Overseas prize being awarded to Miss Gladys Kippen of Vernon, for a poem, written to the music of the Sonata Pathétique.

Open Seasons for Game.

Deer, moose, Nov. 1 to Dec. 14
Ducks, geese, Sept. 15 to Nov. 14
Elk, Oct. 1—Dec. 14
Grouse, Oct. 1—31
Hungarian Partridge, Sept 15—Nov 30
Fox, Nov. 1—Jan. 31
Mink, martin, otter, Nov. 1—March 31
Muskrat, March 1—April 30
No open season on ruffed grouse,
prairie chicken, beaver or buffalo.

The Sacred Flower.

The Poppy—pretty much of a weed growing rank in those fields of Flanders—has by association with the sacrifices and achievements of a past generation been elevated to a sacredness of character not possessed by the flora of any individual nation.

The Poppy has become the universal emblem of sacrifice. The wreath of poppies has displaced the laurel of triumph because of the deeper elements which it incorporates.

Wear a Poppy for Remembrance on Saturday next, November the Eleventh.

Motorists Ask for Change in License Year.

In an effort to have the Alberta Government declare the auto license year to be from April 1 to March 31, instead of from Jan. 1 to Dec. 31, as at present, the Alberta Motor Association is sending all over Alberta copies of a petition to be presented to the Hon. W. L. Walsh, Lieutenant Governor of Alberta.

The petition will be placed in 2000 garages, service stations and auto accessory stores throughout the province to be signed by auto owners.

Provincial Secretary Bawden says the A.M.A. was right behind this move, and he expected every car owner would sign.

The petition reads as follows:

To His Honor the Lieutenant-Governor of the Province of Alberta in Council:

The petition of the undersigned humbly sheweth—

That the annual license fee for motor vehicles becomes due any payable on the 1st day of January of each year;

That there are many inducements for owners to cease operating motor vehicles and avoid the necessity of disbursing license fees at the time, resulting in loss of revenue from the gasoline tax, loss of business to those servicing motor vehicles, and inconvenience to owners, all of which could be avoided and overcome by the alteration of the license year, so that license become payable on April 1 of each year in lieu of January 1.

Wherefore your petitioners humbly pray that Your Honor may be pleased to alter the license year from Jan. 1 to April 1 in each year.

Remembrance Day a Holiday

Remembrance Day (Nov. 11th) was made a statutory holiday by special Act of Parliament. Section 164 of the Criminal Code of Canada provides a penalty of one year's imprisonment for any person disobeying a statute of Canada.

Stony Plain and District

Mr Carl Petersen is back in service again with his truck for hauling farmers' produce to market.

Jack McGillivray gave Stony a look in on Tuesday.

Young's General Store's offer of a bag of Ogilvie's for wheat made them some busy days this week.

Mr Joe Miller arrived down from Wembly on Saturday last. Mr Carl Enders is said to be, at present, on his way down.

A shipment of Christmas trees has been received at the Royal Cafe.

Auctioneer Zucht is holding a sale for Mrs S Walton of horses, cattle, farm machinery on Sat. Nov. 18. No reserve.

A masquerade dance is being arranged to be held in the Mewassin Schoolhouse Friday Nov. 10; good music.

BUTTER AND EGGS WANTED
at The Royal Cafe.

An "Old Favorites" Contest.

Our attention has been drawn to an interesting Contest just launched by the Family Herald and Weekly Star. \$1500.00 are offered in Cash Prizes to those most successfully solving a set of picture puzzles.

Each puzzle picture illustrates the title of an "Old Favorite" song, the object of the contest being to name each one of them correctly. A book featuring 1600 old favorite song titles has been compiled by the publishers. This book contains all the songs which the puzzle pictures illustrate and a copy is given to every active contestant as an aid. The pictures are very cleverly drawn and provide interesting entertainment to those taking part. The nature of the Contest itself, as the name implies, brings back to mind those old familiar tunes which never seem to grow old and which recall memories of those happy days when they were the current musical hits.

Any of our readers will find it well worth while dropping a line to the Family Herald and Weekly Star, at Montreal, for full details of this Contest which will be gladly sent to anyone interested, along with a sample copy of the paper.

Three new faces will be seen in Junior ranks this season. Last season the team had a shortage of rightwingers; the 3 new men are all right—A Duckolke, W Larson, P Gannon. They are all pretty sturdy.

The Juveniles are off to a good start and are headed in the right direction.

By the by, it wouldn't be a bad idea to keep Doc 1 open

for the big drive.

Tonight the town council meets to decide who will take care of the skating rink this season.

N.Y. Rangers vs. Maple Leafs

on Saturday Night.

First of the General Motors

Hockey Broadcasts on a National

network is announced for Saturday evening next, the 11th, when

New York Rangers meet Toronto

Maple Leafs in a National League

game at Maple Leaf Gardens, To-

ronto. From that date until the

close of the regular season, March

17, there will be a similar broad-

cast carried each Saturday night

from Coast to Coast. It is announced

that, from time to time, one of the

Montreal Maroons home games

will be carried on the National

network instead of a game from

the Maple Leaf Gardens.

Accident on the Highway.

While a party of delegates from Stony Plain and Holborn were on their way on Friday last to the nomination convention for the Federal riding of Edson Jasper, held at Onoway, they met with what may have proved to be a serious accident, just opposite the Wes Hubbel farm, on the Highway. While the driver of the auto Mr Partridge of Holborn was trying to overtake a truck traveling in the same direction, he took his machine too near the edge of the grade, with the result that the outfit slipped off and overturned. All the windows were smashed, but the passengers, five in all, escaped serious injury. On being phoned for, Mr Hardwick's sedan sailed out to the rescue, and, with Mr Louie Miller at the wheel, brought the party in safety to Onoway, and brought them in safety home again.

Fatal Shooting Accident.

A sad shooting accident occurred in the North Blueberry district on Thursday afternoon last, whereby Gustav Vogt, a farmer there, lost his life. Gustav had been out shooting prairie chicken about a quarter-mile from his home. A bird he shot at had only been "winged" and fluttered into some nearby brush. Gustav was poking about the willow bush with his .22 rifle when the trigger caught and the firearm went off. Altho the small calibre bullet had passed thru Vogt's chest near his heart, marks showed he had taken a few steps toward his home and collapsed. There is thought to have been no eye witness.

An officer of the R.C.M.P., accompanied by the Coroner, made an investigation, when it was decided an inquest was not necessary.

Hockey Notes.

While activities in Stony's hockey circles have been confined to the Juveniles the big leagues are away to a good start.

Tonight the town council meets to decide who will take care of the skating rink this season.

Three new faces will be seen in Junior ranks this season. Last

season the team had a shortage of rightwingers; the 3 new men are all right—A Duckolke, W Larson, P Gannon. They are all pretty

sturdy.

The Juveniles are off to a good

start and are headed in the right

direction. By the by, it wouldn't

be a bad idea to keep Doc 1 open

for the big drive.

24—U.F.A. dance at Lucknow
School.

DECEMBER—
1—Whist Drive, Town Hall.

On the Side.

At the meeting of the Town Council Thursday night the matter of "letting" the skating rink out for this season was considered, the secretary having been in receipt of one tender for the job. The tender was from Mr Robt. Downs. Action on the matter was deferred for a week. In the event of Mr Downs taking over the rink, this will probably debut him from active service on the Senior team, he having formerly been a member for several seasons. Mr Downs ("Bobby" to his hockey friends) the seasons he played, was a most enthusiastic and spectacular stick-handler—some of the critics classing him as a "one-man team," as is current history that, once "Bobby" got the rubber disc, the balance of his team could take a short vacation; and then by deviating methods and circuitous routes he'd head for the opposite goal with nobody to buck all the members of the opposing team. To add spice to the adventure, it is reported there were times he'd nearly score.

¶ Mabel is headed, this week, for the Arctic Ocean! In case you're interested, Mabel is the ferryboat until last week used in crossing Peace river at Dunvegan. Mabel got caught in an ice floe on Thursday, and is now on her way down the Peace to the Arctic.
